A Leap Towards Excellence

Tubecraft Industries is one of the leading names in manufacturing and supplying best in class hospital furniture and services to hospitals and dealers since its establishment in the year 1997. Our customer satisfaction record of 28 years gives a brief idea about the make and the quality of its products that are meant to take care and offer physical and emotional support for the patient.

Our products are user-friendly as they are made based on extensive research and practical knowledge of the owner Mr. Nivas Patil himself, a B.E.Mechanical and also a believer of delivering utmost care for the people those who are concerned about saving lives. The equipments are designed keeping in mind the place and their functions where these will be used. Our owner understands that the priority of the Doctor should be about saving lives rather than spending time in knowing the technical know-how of the machinery.

Tubecraft Industries understands the importance of the hospitals hence we only hire people that are professionally qualified. Our staff is categorised for better implementation of the design to attain utmost precision from Workers, Supervisors and Managers for best craftsmanship, high grade quality equipments, advance technology machineries which are suitable for ICU's, Operation Theaters, Wards, OPD's and Medical office. Our Technical Staff, Sales and Marketing Team work in coordination with each other to offer best economical solutions and designs to manufacture custom made products to meet the demand of the dynamic market. All our products act in accordance with the applicable EU regulations. Tubecraft is an ISO 9001 : 2015 certified company that assures the customer of the quality product.

OUR VISION

Business excellence through customer satisfaction by manufacturing world class hospital equipments through qualitative team work.

OUR MISSION

To render reliable hospital equipments and services for physical, psychological and spiritual safety of patients and caretaker.

Core Values

1. Quality,
2. Team work,
3. Safety,
4. Reliability,
5. Faith and integrity.

TCI - HF - 300 - I.C.U Bed Motorized.

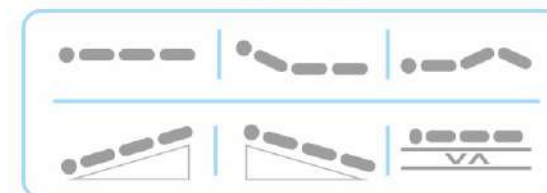

Specifications

- Remote Control 1 No. of handset operated by 4 actuators & 1 control unit with (optional) battery back-up.
- 1st actuator for height adjustment, 2nd actuator for tilting bed, 3rd actuator for head up position panel, 4th actuator for knee bend panel, leg panel adjustable on ratchet bar.
- Bed frame made of M.S. rectangular 60 x 30 mm heavy gauge pipes.
- Fiber bows (Head & Foot) in high quality of fiber.
- Fiber Bows collapsible side railing.
- Heavy duty Dai.5" caster wheels with 2 break wheel in opposite directions.

TECH-SPECIFICATIONS
